

COUNCIL MINUTES

for the meeting held
on Tuesday, 15 March 2022

in the Virtual Meeting Room/Council Chambers
72 Woodville Rd, Woodville SA 5011

PRESENT :**Elected Members:**

Mayor - Angela Evans, Councillor - Gerard Ferrao, Councillor - Kenzie van den Nieuwelaar (via Zoom), Councillor - Paul Sykes (via Zoom), Councillor - Kelly Thomas, Councillor - Alice Campbell (via Zoom), Councillor - Sarah McGrath (via Zoom), Councillor - George Turelli, Councillor - Helen Hibeljic (via Zoom), Councillor - Matt Mitchell (via Zoom), Councillor - Edgar Agius, Councillor - Thomas Scheffler (via Zoom), Councillor - Stuart Ghent (via Zoom), Councillor - Tolley Wasylenko (via Zoom), Councillor - Oanh Nguyen (via Zoom)

DATE :

Tuesday, 15 March 2022 | Time 7:00 PM

VENUE :

Virtual Meeting Room/Council Chambers

In Attendance :

Chief Executive Officer - Paul Sutton	General Manager Corporate Services - Donna Dunbar
General Manager City Services - Bruce Williams	General Manager Asset Management Services - Adrian Ralph
Manager Governance and Operational Support - Kerrie Jackson	Manager Open Space Recreation and Property - Sam Higgins
Manager Media Marketing & Communications - Kristie Johnson	Environmental Management Officer (Waste and Recycling) – Loren Mercier
Governance Officer - Aaron Galanti	

1. COUNCIL OPENING

The meeting commenced at 7.00 PM.

1.1 OPENING PRAYER

Almighty Father from Whom all goodness flows, grant unto us qualities of wisdom justice and tolerance, that we the civic leaders of this community may govern in harmony and concord.

This we ask in Thy name.

We also remember and give thanks for those, our sons and daughters, who gave their lives for Australia.

Lest we forget.

Niina Marni is Kurna for ' Welcome'. The City of Charles Sturt acknowledges and pays respect to the traditional custodians of the land, the Kurna people of the Adelaide plains. We pay our respect to Elders past, present and emerging. We respect their spiritual beliefs and connections to land which are of continuing importance to the Kurna people of today. We acknowledge the contributions and important role that Aboriginal people continue to play within our local community in Charles Sturt. We also respect the culture of Aboriginal people visiting from other areas of South Australia and Australia.

1.2 APOLOGIES AND LEAVE OF ABSENCE

Apologies

Councillor - Charlotte Watson

Leave of Absence

Councillor - Paul Alexandrides

Leave of the meeting was sought to allow Councillor Ferrao the opportunity to make a personal statement. Leave was granted.

Moved Councillor - Gerard Ferrao

Seconded Councillor - Tolley Wasylenko

Motion

That Councillor Ferrao's statement is included in the Minutes.

Carried Unanimously

"Good Evening Elected Members,

1. At the last meeting of the Full Council on 28 February 2022, Item 6.12 was advanced concerning consultation and other directions around the Freshwater Lake Reserve on Delfin Island in West Lakes SA 5021 (*hereafter 'The Duck Pond'*).
2. I seconded and supported the motion which this Council chamber carried unanimously. The decision among other things was to continue consultation with relevant persons concerning The Duck Pond.
3. After the meeting I sought advice as to whether I should have declared a Conflict of Interest in matter number 6.12 on 28 February 2022.
4. I have obtained private counsel and I do not waive my legal privilege when I state the following:
 - 4.1 I contend, I have a Perceived Conflict of Interest because I am a member of the Facebook Group: Friends of the Duck Pond West Lakes (Freshwater Botanic Lake). In the case of this Facebook Group, I am not currently and I have never been previously, an Office Holder.
 - 4.2. I am a resident of West Lakes and a ratepayer within the City of Charles Sturt Council. As an Elected Member in Local Government, it is important that I inform myself, wholly of any views, by any persons impacted by any Council matter(s) and/or Council decision(s). It is only in hearing the views of those concerned that I may make informed and objective Council decisions.
 - 4.3. In the present context of this current round of community consultation, I will receive no benefit or detriment, direct or indirect, personal or pecuniary from considering and voting on this matter.
 - 4.4. Should this matter arise in the future as it has in the past, I intend to declare my relevant interest for the Public Record."

2. CONFIRMATION OF MINUTES

2.1 COUNCIL

Brief

Confirmation of the minutes of the previous meeting held on Monday, 28 February 2022.

Moved Councillor - George Turelli

Seconded Councillor - Helen Hibeljic

Motion

That the minutes of the previous meeting held on Monday, 28 February 2022 be taken as read and confirmed.

Carried Unanimously

2.2 REPORTS OF COMMITTEES - PART I

2.2.1 CORPORATE SERVICES COMMITTEE

Brief

The Corporate Services Committee was held on Monday, 7 March 2022.

Moved Councillor - Gerard Ferrao

Seconded Councillor - Tolley Wasylenko

Motion

That having considered the recommendations of the Committee which has read and considered the reports in the agenda related to items:

4.5 LONG TERM FINANCIAL PLAN AND FRAMEWORK FOR THE 2022/23 BUDGET

Motion

1. That the report be received and noted.
2. That the information in the report be used by Council in determining the Long Term Financial Plan 2021-2031 that will guide the preparation of the Draft 2022/23 Budget.
3. That the high level parameters for year 1 of the LTFP Scenario for the 2022/23 forecast be used to guide preparation of the Draft 2022/23 Budget.

4.6 POLICIES FOR REVIEW - REVOKED AND MINOR CHANGES ONLY

Motion

That the revised policies, as shown:

- Ageing in Charles Sturt Policy in Appendix A
- Breast Feeding Policy in Appendix B
- Contaminated Site Policy in Appendix C
- Parking Controls Policy in Appendix E
- Procurement Policy in Appendix F
- Reserve Naming Policy in Appendix G
- Sporting and Community Club Loan Guarantee Policy in Appendix H
- Volunteer Policy in Appendix I

be adopted.

That the policy, as shown:

- Horses on the Foreshore Policy in Appendix D

be revoked.

Council adopts the recommendations of the Committee as printed in the Minutes of this Committee.

Carried Unanimously

3. REPORTS

3.03 MAYORAL REPORT - FEBRUARY 2022

Brief

In line with the Code of Practice for Meeting Procedures, Mayor Evans has provided a report for the month of February 2022, detailing her activities, functions and media interactions in her official capacity.

Moved Councillor - Edgar Agius

Motion

That the report be received and noted.

Councillor - Alice Campbell entered the meeting at 7.14 PM

Seconded Councillor - Helen Hibeljic

Carried Unanimously

4. DEPUTATIONS

4.03 DEPUTATION - OPPOSITION TO NEW PICNIC SHELTER IN GLENWOOD RESERVE, AND THE EFFECT OF LOSING GREEN SPACE TO BUILT STRUCTURES

Brief

A deputation request was received from Mr Tim Reynolds, and Mr Don Lee on behalf of 'Friends and neighbours of Glenwood Reserve / Fulham Park Stud Heritage Place' who are opposing a new picnic shelter in Glenwood Reserve, and are also concerned about the incremental loss of green space to built structures and its cumulative effect across the urban environment; increase in local parking; and the risk of falling limbs without improved water management.

Leave of the meeting was sought to grant Mr Reynolds and Mr Lee an additional 3 minutes to conclude their deputation. Leave was granted.

Councillor - Matt Mitchell entered the meeting at 7.30 PM

Moved Councillor - Helen Hibeljic

Seconded Councillor - George Turelli

Motion

1. That the deputation be received and noted.
2. That Mr Tim Reynolds, and Mr Don Lee be thanked for their presentation and any notes that comply with Council's Code of Practice for Meeting Procedures and the laws of defamation, be included in the Minutes.

Carried Unanimously

FULHAM PARK STUD

Home > Community & Recreation > Arts, culture and history > Local history > Our heritage places > Fulham Park Stud

William Blackler arrived in South Australia in 1839. He became a successful Port Adelaide businessman after finding fortune in the Bendigo Goldfields. In 1868, Blackler purchased Fulham Park Estate in the Reedbeds from AH Davis. The property extended from Grange Road to south of Henley Beach Road.

Blackler had an interest in horses and believed that there was a need for improvement in South Australian racehorses. In 1874, he established Fulham Park Stud following a visit to England where he bought three thoroughbred stallions, Countryman, Winterlake and Sir Edmund; brood mare Bridal Wreath; and trotting stallions, Young Shales and Flying Scotchman. More mares were purchased during a second trip in 1876.

A journalist visited Fulham Park Stud in late summer in 1884 and provided the following account of the property:

A very easy jaunt from town to any lover of good horse stock is Fulham Park, on the Henley Beach Road.... Just at this season of the year the paddocks by the roadside, which are famous for supplying the best lucerne obtainable in the colony, fill the air with a beautifully fresh perfume... Mr Blackler has built his homestead so far back from the road that its roof only is visible from the tramcar and one has to traverse a good-sized paddock ere he finds himself at the bridge across the Torrens by which access is gained to the stables and homestead of Fulham. These are partly enclosed with fine trees, and even on a tolerably hot day there is shelter and cool shade for the equines, and a cordial reception within the house for the visitor...

Under Blackler, the Stud enjoyed significant success, producing horses that went on to win major Australian races including the Melbourne Cup, Caulfield Cup, Caulfield Stakes, VRC Derby, Adelaide Cup and Goodwood Handicap. Blackler also played a significant role in the establishment of South Australian horse racing.

Blackler died in 1896. The Stud passed to his son, WA Blackler, who continued with its operation until his declining health saw the property sold to Sir Sidney Kidman in 1912. The Critic newspaper featured photos of the Stud and Blackler family in March 1903: <http://nla.gov.au/nla.news-article212154947>

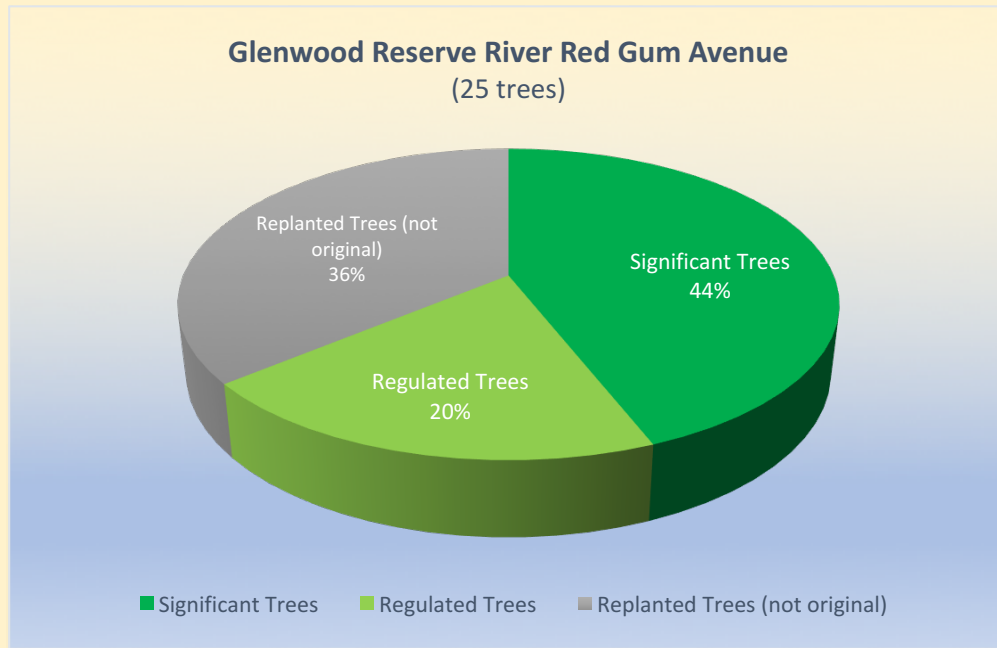

Sir Sidney is renowned as Australia's 'Cattle King'. He developed a chain of cattle stations in South Australia and the Northern Territory, allowing cattle to move to food and water during drought and floods. The suburb Kidman Park is named after him.

Tree assessment criteria

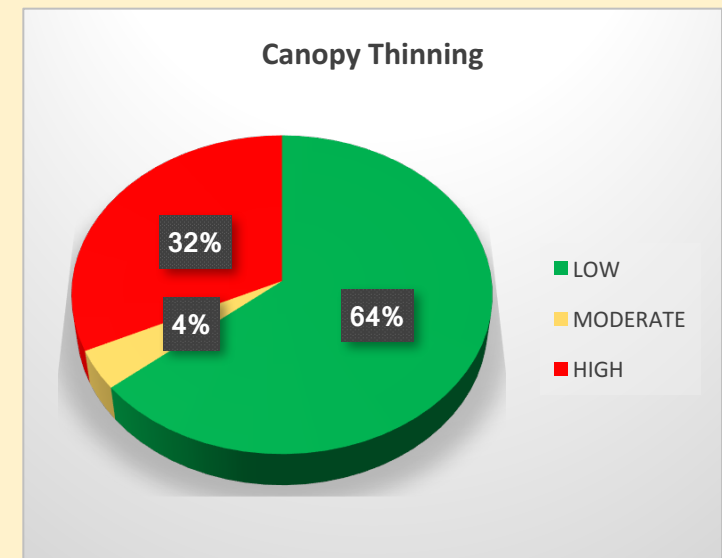

The trees were assessed individually based on the following criteria:

Criterion	Purpose
Circumference of trunk (1m above ground level)	To determine whether meets criteria of Regulated Tree or Significant Tree under the <i>Planning, Development and Infrastructure Act 2016</i>
Diameter of trunk at Breast Height (DBH) (1.4m above ground level)	To determine the Tree Protection Zone (TPZ) using the Australian Standard method. The TPZ is the principal means of protecting trees on development sites. The TPZ is a combination of the root area and crown area requiring protection.
Canopy intactness	To visually assess the percentage of living foliage compared to the estimated potential amount that would be present in a fully extended canopy
Tree structure	To assess whether the tree has stable form or has one or more structural problems that may have implications for safety &/or longevity
Canopy thinning	To visually assess the canopy based on current leaf density to indicate the presence of soil moisture stress or other stress factors

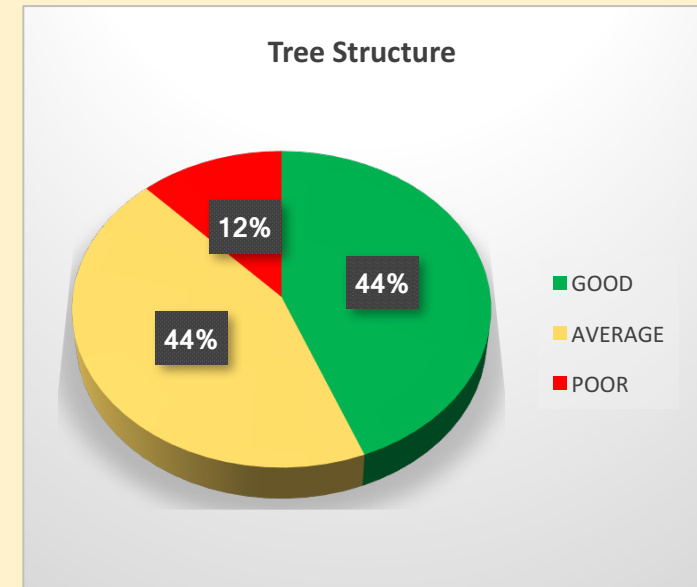

Tree Survey in Glenwood Reserve – Selected Results

- 64% (16 trees) are either Regulated Trees or Significant Trees under the *Planning, Development and Infrastructure Act 2016*. All but one are survivors of the original planting.
- 36% (9 trees) of the original / historic planting have been replaced due to death, poor health or safety reasons

Only 11 trees (44%) in the avenue exhibited GOOD Tree Structure

16 trees (32%) exhibited a high level of canopy thinning, possibly due to soil moisture stress

*“ Of concern is the number of trees that are **not** in good condition. This is likely due to a combination of factors:*

- a dry summer, diminishing groundwater*
- climate change impacts (recent & cumulative)*
- irrigation unsuited to deep-rooted trees*
- root disturbance by construction of park furniture and regular use of reserve by a heavy vehicle”*

Council preferred plan
17 February 2022

- 1 Existing picnic
- 2 Existing playspace
- 3 Existing seat
- 4 Existing bin
- 5 Existing swings
- 6 New shelter with new picnic setting

Deputation for CCS Council Meeting 15/3/2022

First presentation by T. Reynolds on behalf of
Friends and Neighbours of Glenwood Reserve / Fulham Park Stud Heritage Place

PROPOSED PICNIC SHELTER AT GLENWOOD RESERVE

Glenwood Reserve contains an avenue of Historically Significant Trees which are survivors of the former Fulham Park Stud owned by Sir Sydney Kidman. These trees are River Red Gums – a species native to SA - which were planted here over 90 years ago. The age of the trees, their historical origin, and their configuration in a long avenue between the River Torrens and Valetta Road, all contribute to their significance. This tree avenue is a key feature of the “Fulham Park Stud” Heritage Place. As a regular visitor to the reserve over the past 12 years, it has become evident to me that the trees are vulnerable.

Our Heritage Places

<https://www.charlessturt.sa.gov.au/community/arts,-culture-and-history/local-history/our-heritage-places/fulham-park-stud>

I learned of the picnic shelter proposal when approached by a local resident, Don Lee. Apart from questioning the need for a new picnic shelter, we felt that it would be inappropriate and intrusive for the reserve. Concerned also about recent tree losses, and the ongoing threat of climate change, we undertook a survey of the trees in Glenwood Reserve and Park Drive in January.

Results of River Red Gum Survey

Significance

- Total: 44 trees (25 in Glenwood Reserve, 19 in Park Drive median)
- 17 Significant Trees (11 + 6)
- 11 Regulated Trees (5 + 6)
- TOTAL Significant or Regulated = 28

Tree health – Glenwood Res. only

- Only 11 of 25 trees had “Good” tree structure
- 9 of 25 trees showed “Moderate” or “High” degree of canopy thinning
- 5 trees with “High” canopy thinning were in close proximity to park furniture (i.e. playground, swings, picnic table); The Tree Protection Zones (TPZ) of 4 of these trees have been encroached on

We also note: A new Swings area installed in recent years next to a large tree resulted in the tree’s removal following the fall of a large limb.

Further, we noted the following...

Lost Green Space in Glenwood Reserve

- Total loss (including proposed picnic shelter): 300m² (3.6%)

Local picnic shelters

- 4 Picnic Shelters within 415m
- Closest is 270m to west (Shelley Reserve)
- 3 at Collins Reserve

In summary - our key concerns:

- Existing structures are already too close to the trees – encroaching on Tree Protection Zones (TPZ). Position of the new (proposed) picnic shelter narrowly avoids the TPZ of the nearest tree, but may still require partial canopy removal.
- Picnic Shelter will be a significant intrusion on the character and visual amenity of the heritage tree avenue – thus impacting on the integrity of the Heritage Place.
- It will result in further, *incremental loss* of much needed green space
- With no other intervention here, water management and climate stress *remains* a serious threat for the longevity of the heritage trees (the key management issue)
 - Climate stress on the trees is already significant without the need to impose any further stress from additional infrastructure development in GR.
 - The sudden death of 5 large trees in Park Drive during the 2019 heatwave highlights the narrow margin of survival - even for large, mature trees - during extreme weather events (which are becoming more frequent)
 - The existing irrigation system - whilst suitable for grass - is of limited benefit to the deep-rooted River Red Gums which depend on periodic flooding or a shallow aquifer.
 - *AdaptWest Climate Change Adaptation Plan* predicted in 2016 the following for western Adelaide:
 - The condition of trees... (is) likely to decline as soils dry and evapotranspiration increases
 - Increasing frequency and intensity of heatwaves may reduce tree condition with associated risks to public safety as well as amenity

We therefore strongly advocate to Council:

- No Picnic Shelter for Glenwood Reserve, but maintain the existing informal picnic setting (which visitors obviously appreciate)
- As an alternative, investigate a more sophisticated upgrade to Glenwood Reserve (& Park Drive median), addressing the core management issues of tree health and heritage protection. We suggest an initiative based on the following “adaptation options” for public open space in *AdaptWest 2016*:
 - Implement efficient irrigation practices to maximise greening of open space [immediate]
 - Reduce reliance on potable water to irrigate public open space and increase alternative water sources, including stormwater capture and re-use [immediate]

A local Water Sensitive Urban Design (WSUD) facility to capture local stormwater and recharge the shallow aquifer could improve the climate resilience of the trees, and provide biodiversity and visual amenity benefits. It would align well with Council’s *Tree Canopy Improvement Strategy 2021-2045* and the recent Emergency Declaration.

In short, we believe a climate adaptation initiative which protects the heritage trees and maximizes the greening of open space - should be given primacy over other potential investments.

Deputation to Council - 15/3/2022 - Notes for Don Lee comments.

Apart from the matter of the shelter, we seek your permission to submit a detailed initiative in support of council's new Growing Green climate change policies. This initiative relates to 62 trees providing a significant canopy in Glenwood Reserve and the adjacent median in Park Drive, both in Kidman Park. A group of local residents, with the help of Tim, as our ecologist, has assembled a detailed document containing relevant information and suggestions. If you agree this will be submitted shortly

Apart from needing to preserve this large canopy, 44 of those trees are River Red gums, planted on the 1874 Fulham Park Stud. Council has listed these as part of its Heritage Places and as such they are deserving of Council's support. With sufficient water, these trees are capable of living for hundreds of years. An example is on Riverway, where that tree's proximity to the river allows it to thrive.

The third reason for Council to support our initiative, is that these big trees, on Council land, meet State requirements for Significant and Regulated trees and as such need to be protected by Council.

Our detailed submission will suggest that there is urgency as some of the trees are not in good condition and, two summers ago, five of them died. That 2019 summer was unusually hot and dry. The Bureau of Meteorology's records for that summer include the following comments. ***"the 2019 annual temperature anomaly is 1.5C plus"*** and ***"Adelaide rainfall in 2019 was "very much below average"***. It is believed that the principal source of water for these big trees is from the shallow aquifers underlying the area and likely that the water levels in those aquifers reduced or dried out.

The loss of these five trees is not the only indicator of stress, as two major limbs have fallen from the southernmost trees in the last year and the condition of some trees is poor.

The subsequent two summers have been relatively moderate and no more trees have died. However, that period was moderated by the la Nina effect. That moderation is coming to an end now and we will return to the el Nino effect bringing higher temperatures and lower rainfall. A temperature increase of 1.9 degrees Centigrade is projected. This situation brings urgency to the matter and we will be suggesting the interim use of drip irrigation for use until an enduring measure is found.

Councillor - Matt Mitchell left the meeting at 7.43 PM

6. BUSINESS

6.18 EXTERNAL GRANT FUNDING ACCEPTANCE - WEEKLY FOGO TRIAL

Brief

Green Industries South Australian (GISA) has offered Council grant funding for a pilot program of weekly food and organics collection (FOGO). The grant application was submitted for a proposed 12 month "opt-out" 1,000 household pilot program which will see the collection frequency of the 240L FOGO (green lid) bin shift to weekly for these households in the trial, while the 140L general waste (blue lid) bin collection frequency of the trial households will move to fortnightly in order to increase the amount of food organics being recycled via FOGO bins. This model has been successfully trialled across other Local Government areas including the City of Holdfast Bay here in South Australia.

GISA offered Council a grant of \$70,305 to support the implementation of the pilot project to 1,000 households.

Moved Councillor - Kelly Thomas

Seconded Councillor - Helen Hibeljic

Motion

1. That the report be received and noted.
2. That Council accepts the funding amount of \$70,305 provided by Green Industries SA for the pilot of weekly FOGO collections.
3. That the grant is offered on a 1:1 cost sharing basis with Council to contribute matching funding of \$70,305 to be split across two financial years (22/23 and 23/24).
4. That Council acceptance of the funding is conditional on the budget bids for the Council contribution being endorsed.
5. That the pilot project of weekly FOGO collection for around 1000 households on an 'opt-out' basis is supported.

Carried Unanimously

6.19 LOCAL GOVERNMENT ASSOCIATION ORDINARY GENERAL MEETING - 8 APRIL 2022 - VOTING PREFERENCES AND VOTING DELEGATE**Brief**

The Ordinary General Meeting of the Local Government Association (LGA) is being held on Friday 8 April 2022 at the Adelaide Entertainment Centre. This report requests Council to consider the items on the agenda to determine Council's voting preference for each of these items. Council will also need to consider an alternative voting delegate for the meeting.

Moved Councillor - Gerard Ferrao**Seconded Councillor - Tolley Wasylenko****Motion**

1. Council endorse the positions as detailed in Appendix 1, except for items 8.1, 8.2 and 8.3, for each of the Motions on Notice on the agenda for the LGA Ordinary General Meeting being held on Friday 8 April 2022.
2. Council appoints Councillor Tom Scheffler to attend the 2022 LGA Council Best Practice Showcase and Ordinary General Meeting and to be Council's Delegate for voting rights.

Carried Unanimously**Suspension of Proceedings - (7.53 PM)**

That Council suspend the operation of Division 2 of the Local Government (Procedures at Meetings) Regulations 2013 to facilitate informal discussions regarding items 8.1, 8.2 and 8.3 for a period of 20 minutes.

Councillor - Paul Sykes left the meeting at 7.53 PM

Councillor - Thomas Scheffler left the meeting at 8:05 PM

Councillor - Thomas Scheffler entered the meeting at 8:06 PM

Councillor - Tolley Wasylenko left the meeting at 8:06 PM

Councillor - Tolley Wasylenko entered the meeting at 8:07 PM

Resumption of Proceedings - (8.19 PM)

That the period of suspension be brought to an end.

Moved Councillor - George Turelli

Seconded Councillor - Thomas Scheffler

Motion

1. Council endorse the positions as detailed in Appendix 1 for items 8.1 and 8.2 on the agenda for the LGA Ordinary General Meeting being held on Friday 8 April 2022.
2. Council does not support item 8.3 on the agenda for the LGA Ordinary General Meeting being held on Friday 8 April 2022.

Carried Unanimously

6.20 PROPOSED MOTIONS FOR THE 2022 ALGA NATIONAL GENERAL ASSEMBLY BUSINESS PAPERS - CR GERARD FERRAO

Brief

Councillor Gerard Ferrao has proposed two motions to be submitted on behalf of Council for inclusion in the 2022 Australian Local Government Association (ALGA) National General Assembly (NGA) Business Papers. The 2022 ALGA NGA is being held from 19-22 June 2022 in Canberra.

Moved Councillor - Gerard Ferrao

Motion

Council supports the submission of the following motions for inclusion in the 2022 ALGA National General Assembly Business Papers:

1. This National General Assembly calls on the Australian Local Government Association to re-establish its advocacy position to both major political parties for commonwealth financial constitutional recognition of Local Governments across Australia.
2. This National General Assembly calls on the Australian Local Government Association to advocate to both major political parties for the scope of the National Disability Insurance Scheme (NDIS), expanding the scope to enable Local Governments to receive Commonwealth contributory funding. This funding would contribute to community facilities and assets in support of NDIS eligible recipients, and other community members who may benefit from them. For example, improved accessibility of recreational facilities and other infrastructure assets.

Councillor - Kelly Thomas left the meeting at 8:25 PM

Councillor - Kelly Thomas entered the meeting at 8:26 PM

Seconded Councillor - Edgar Agius

Councillor - Thomas Scheffler left the meeting at 8:28 PM

Councillor - Thomas Scheffler entered the meeting at 8:29 PM

Councillor - Helen Hibeljic left the meeting at 8:32 PM

Councillor - Helen Hibeljic entered the meeting at 8:33 PM

Carried Unanimously

6.21 DISCRETIONARY WARD ALLOWANCE – CONSIDERATION OF APPLICATIONS

Brief

Discretionary Ward Allowance grants are available to eligible, not for profit individuals, groups and organisations which are seeking funding support for programs, projects and activities that benefit the local community. This report is for Council to consider new applications that have been received and assessed.

Moved Councillor - Stuart Ghent

Seconded Councillor - Gerard Ferrao

Motion

- 1. That the Discretionary Ward Allowance application for West Lakes Croquet Club Inc for \$550.00 (no GST) be approved from Semaphore Park Ward.**

Carried Unanimously

7. MOTIONS ON NOTICE

Nil

8. QUESTIONS ON NOTICE

8.03 QUESTIONS ON NOTICE - COUNCILLOR STUART GHENT - RECYCLING WASTE DIVERTED FROM THE THREE BIN SYSTEM

Brief

Domestic waste information and education is the best way for our residents to learn what goes in what bin and what does not go into the standard three-bin waste system. Our Council has much useful information on our websites, quarterly newsletters to whole of community, information posters and loose information sheets for recycling waste into the three waste bins. Documentation and internet advice of the environmental benefits of *'do's and don'ts'* of domestic waste must be separated, *as well as retailing businesses who accept additional recycling waste* that has a marketable value *which underpins the overall success of recycling in SA*. The decisions residents make when lifting the appropriate lid to dispose of their waste in the appropriate council bin or *can be recycled by another business has a huge impact of the success of recycling*.

I've visited on a number of occasions the Wingfield recycling complex, CAWRA (joint venture with our Council and Port Adelaide Enfield Council), Beverley Recycling and Waste Centre, and noting the amount of non-three-bin recycle material that becomes landfill.

I've also noticed the kerb-side domestic hard rubbish bi-annual residents' pick up service has so many recyclable items which are going to landfill.

Residents should be encouraged to abide by the ***Recycling from A-Z | Which Bin SA*** <https://www.whichbin.sa.gov.au> › ***a-z-items data base***, which delineates in detail the *do's and don'ts for all domestic waste and when to refer to other agencies, and businesses who will accept additional waste items. This website too often does not refer to the actual businesses and addresses within our city or close by, be it local supermarkets, retail stores and what they will accept as domestic recycle waste.*

The Council websites and documentation should also provide where the drop-off points are for these domestic waste items which aren't accepted in the standard three-bin waste stream, such as car batteries, oils, asbestos, and so many more.

Keep these items separated and divert them from landfill. Our goal is to avoid sending any recyclables to the Adelaide landfill dumps.

WE DON'T WANT TO SEND ANY RECYCLABLE ITEM TO LANDFILL.

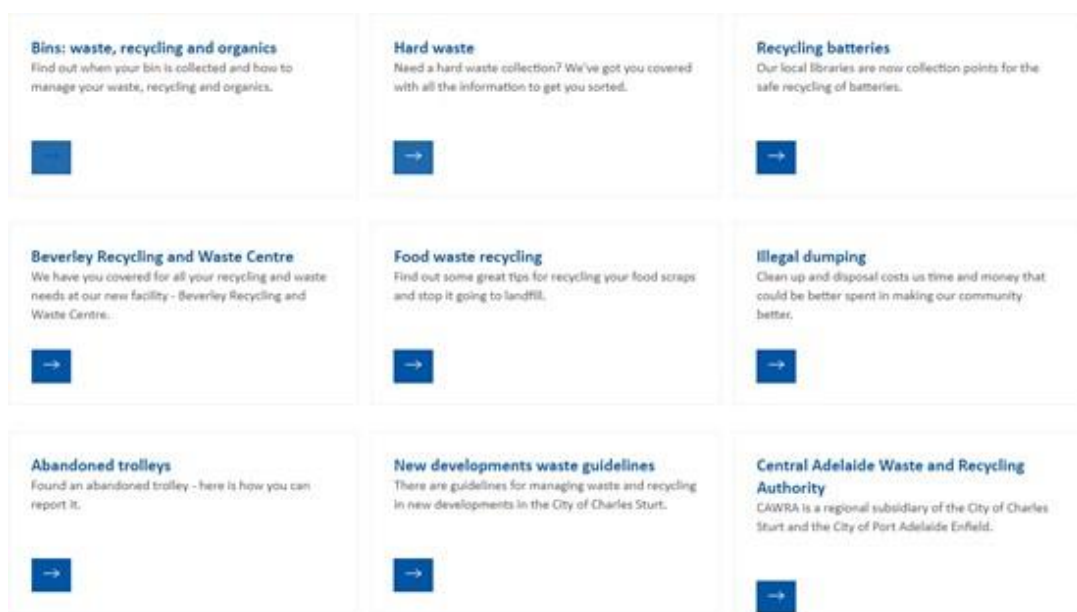

Questions

1. Can our Council websites, and databases please be updated to provide local and nearby businesses addresses and contact details for all other recyclable items not accepted by the Council three bin waste recycle system on the *Which Bin SA* data base and Council public documentation?
2. Are we able to update the *Which Bin SA* database to show our local and nearby businesses addresses and contact details for all other recyclable items not accepted by the Council three bin waste recycle system?

Questions and Answers

1. Can our Council websites, and databases please be updated to provide local and nearby businesses addresses and contact details for all other recyclable items not accepted by the Council three bin waste recycle system on the *Which Bin SA* data base and Council public documentation?

The Council website has a dedicated page on Waste and Recycling and includes information on the available streams of waste management.

Each of these sections comprehensively covers how to dispose of waste. It also includes a link to the *Which Bin SA* website.

A link to the Council website can be accessed here [City of Charles Sturt Waste and Recycling](#).

2. Are we able to update the *Which Bin SA* database to show our local and nearby businesses addresses and contact details for all other recyclable items not accepted by the Council three bin waste recycle system?

Which Bin SA is an external website which is managed by Green Industries SA therefore any changes to their website would be at their discretion.

Residents are able to access the website, enter their suburb and it will provide them with the relevant disposal options, including what can be put in their kerbside collection.
