### General description of the land

Anthea Reserve is a waterfront open space area with linear pathways as shown in the ‘Site Map’ of this Community Land Management Plan. The presence of cadmium has been detected in the soil on the Reserve. The Reserve and land parcel (except for any part of the lands, where relevant, that is subject to any lease/licence as granted by Council in accordance with Section 202 of the Local Government Act) is categorised as Neighbourhood Open Space and Waterfront/Linear/Recreation Park Open Space in the Types and Hierarchy explained in [Community Land Management Plans – An introduction](#).

The Open Space Types applied in this Community Land Management Plan are not limited in the area they may occupy within the Reserve but will generally be available to apply anywhere within the Reserve and across any or all individual community land parcels that form the Reserve.

### **Purpose for which the lands are held**

The Council holds this land for the primary purpose of providing connected and publicly accessible waterfront open space areas with linear shared use pathways, recreation and community facilities for community use and spaces that may be utilised from time to time for complementary business purposes. The Council also holds these lands for secondary purposes associated with addressing environmental, urban design, heritage and stormwater management needs (in no particular order of precedence).

### **Lease or Licence Permissions**

Council may grant or renew leases and/or licences over any part or parts of Anthea Reserve.

Any lease or licence granted or proposed to be granted must be consistent with the uses and purposes for which the Council holds the Reserve, and its objectives for the Reserve, as outlined in this Community Land Management Plan. They may be issued to various sporting, recreation, business, social or community clubs or groups for the use of open space within the Reserve whose activities cater for the local or broader community.

The Council may grant leases and licences of any length, and on any terms, to organisations established for sporting, recreation, social and/or community purposes over any land to which this Community Land Management Plan relates.

Council may issue a licence and/or permit to allow access over the Reserve, or to allow for an activity of a short-term nature. Uses of the land prohibited by Council by laws without approval or uses not identified in this management plan may be approved in relation to the Reserve for instances such as, but not limited to, access to adjoining properties during building construction work.

Council may issue an authorisation for commercial activities under Section 200 of the Local Government Act 1999. Authorised activities must be consistent with the purposes for which the Reserve is held. Approvals may be given on conditions the Council considers appropriate.

An example of activities Council considers relevant to the purposes of the Reserve when considering lease, licence, authorisation or permit requests are (without limitation)

- Community and recreational activities and/or services catering to all ages and cultural groups ie child play groups, biodiversity and nature activities.
- Educational, cultural and community awareness activities that support cultural diversity, health, fitness and general community wellbeing.
- Activities of a passive nature that promotes a healthy active lifestyle ie tai chi, yoga, boating/aquatic activities etc.
- Small family celebratory events.

Permits, licences or easements may be granted by Council to public service provider authorities, within delegations of a relevant Act, for the purposes of provision of electricity, gas, water, internet and telecommunications services (except for above ground telecommunications towers).

**Management Objectives for the lands** (in no order of precedence)

- To provide an open space area that facilitates community participation in formal and informal recreational, cultural and community pursuits and to maximise the use of the lands for these purposes.
- To support and encourage pedestrian and bike rider movement within and through the Reserve made easily accessible from all public entry points.
- To maintain access to and support the activities of the adjacent lake and protect the waterway.
- To manage the land in accordance with the Environmental Management Plan prepared to address the presence of cadmium in the soil on the Reserve.
- To address specific environmental, urban design and heritage objectives.
- To utilise the Reserve for stormwater management purposes.

**Proposal for managing the land**

The management of Anthea Reserve is to be consistent with the descriptions and guiding principles for use and development identified in Neighbourhood Open Space Hierarchy and Waterfront/Linear Open Space types described in Community Land Management Plans – An introduction.

**Performance Targets and Measures for the land**

The performance targets and measures for Anthea Reserve are outlined below. They do not indicate an order of hierarchy or priority.

Performance Targets	Performance Measures
To develop and pursue opportunities for community participation in passive or active, formal or informal, recreational, cultural and community-based pursuits.	Increased visitation and use of Council’s open space areas and facilities as measured by an audit of Council’s customer feedback platforms and customer surveys as conducted from time to time and reported to Asset Management Committee.
To develop/renew/upgrade and pursue opportunities for optimal shared use of, open space areas and facilities that support the recreational and community uses for the lands (including but not limited to facilities such as seating, shade, shelter, fitness and play	Completed upgrade/renewal works reported to Council and Asset Management Committee.

<p>equipment, lighting, playing surfaces, public amenities, paths, fencing, art works and cultural heritage references etc.)</p> <p>To develop and pursue opportunities for optimal shared use of the open space for pedestrian and bike movement within and through a network of connected linear open spaces adjoining the lake.</p> <p>Minimise risk to human health of persons using the Reserve or undertaking maintenance on the Reserve.</p> <p>Provide a safe environment for visitors and users of the Reserve.</p>	<p>Increased usage of the bike/pedestrian network as measured by transport movement studies as conducted from time to time and reported to Council.</p> <p>Update AM Committee on Environmental Management Plan amendments as required.</p> <p>Reduction in security incident reports to Council as measured by an annual audit of Council's customer feedback platforms.</p>
