Description of the land

Hamilton Reserve is a neighbourhood reserve as shown in the ‘Site Map’ of this Community Land Management Plan. The Reserve and land parcel (except for any part of the land, where relevant, that is subject to any lease/licence as granted by Council in accordance with Section 202 of the Local Government Act) is categorised as Neighbourhood Open Space and Landscape Park in the Types and Hierarchy explained in Community Land Management Plans – An introduction.

Purpose for which the land is held

The Council holds this land for the primary purpose of providing connected open space areas with limited facilities for community use and providing spaces that may be utilised from time to time for complementary business purposes. The Council also holds this land for secondary purposes associated with addressing environmental, urban design, heritage and stormwater management needs (in no particular order of precedence).

Lease, Licence and Permits

Council may grant or renew leases and/or licences over any part or parts of the land identified as Hamilton Reserve.

Any lease or licence granted or proposed to be granted must be consistent with the uses and purposes for which the Council holds the Reserve, and its objectives for the Reserve, as outlined in this Community Land Management Plan. They may be issued to various sporting, recreation, business, social or community clubs or groups for the use of open space within the Reserve whose activities cater for the local community.

The Council may grant leases and licences of any length, and on any terms, to organisations established for sporting, recreation, social and/or community purposes over any lands to which this Community Land Management Plan relates.

Council may issue a licence and/or permit to allow access over the Reserve, or to allow for an activity of a short-term nature. Uses of the land prohibited by Council by laws without approval or uses not identified in this management plan may be approved in relation to the Reserve for instances such as, but not limited to, access to adjoining properties during building construction work.

Council may issue an authorisation for short term commercial activities under Section 200 of the Local Government Act 1999. Authorised activities must be consistent with the purposes for which the Reserve is held. Approvals may be given on conditions the Council considers appropriate.

An example of activities Council considers relevant to the purposes of the Reserve when considering lease, licence, authorisation or permit requests are (without limitation)

- Small scale community activities and/or services catering to all ages and cultural groups ie children's playgroups, nature and biodiversity groups, fundraising etc.
- Activities of a passive or limited active nature that promote a healthy active lifestyle ie. yoga, tai chi, art classes.
- Small family celebratory events.

Permits, licences or easements may be granted by Council to public service provider authorities, within delegations of a relevant Act, for the purposes of provision of electricity, gas, water, internet and telecommunications services (except for above ground telecommunications towers).

Management Objectives for the land (in no particular order of precedence)

- To provide a connected network of open space areas within the suburb that facilitates and encourages community use and pedestrian/bike movement through and within the Reserve.
- To address specific environmental, heritage and urban design objectives.
- To utilise a portion of the Reserve for stormwater management purposes if necessary.

Proposal for managing the land

The management of Hamilton Reserve is to be consistent with the descriptions and guiding principles for use and development identified in Neighbourhood Open Space Hierarchy and Landscape Park Open Space Type as described in Community Land Management Plans – An introduction.

Performance Targets and Measures for the land

The performance targets and measures for Hamilton Reserve are outlined below. They do not indicate an order of hierarchy or priority.

Performance Targets	Performance Measures
To develop and pursue opportunities for optimal/shared use of open space and facilities to accommodate pedestrian and/or bike movement through a connected open space network within the suburb.	Increased visitation and use of Council's open space areas and facilities as measured by an audit of Council's customer feedback platforms, transport movement studies and customer surveys as conducted from time to time and reported to Asset Management Committee.
To develop and pursue opportunities for optimal/shared use of open space areas and facilities that support the community uses for the land (including but not limited to facilities such as seating, shade, shelter, lighting, paths, fencing, art works and cultural heritage references etc.)	Increased community satisfaction and use of the recreational facilities measured by an audit of Council's registers, customer feedback platforms and issued permits as conducted from time to time and reported to the Asset Management Committee.
To develop the Reserve into a Recreation Park as outlined in the relevant Asset Management Plan with additional amenities such as, but not limited to paths, seating, lighting, play/exercise equipment, playing surfaces, fencing, shelter, public amenities, artworks, cultural heritage references etc.	Completed works reported to Council and Asset Management Committee in accordance with Asset Management Plan reporting schedules.
Provide a safe environment for visitors and users of the Reserve.	Reduction in security incidents reported to Council as measured by an audit of Council's customer feedback platforms as conducted from time to time.
