Council By-Law No. 1 – Permits and Penalties Council By-Law No. 3 – Local Government Land Council By-Law No. 5 – Dogs and Cats

General description of the lands

Tiranna Reserve is a collective group of land parcels that together form a waterfront open space area with linear pathways shown in the 'Site Map' of this Community Land Management Plan. The Reserve and land parcels (except for any part of the lands, where relevant, that is subject to any lease/licence as granted by Council in accordance with Section 202 of the Local Government Act) is categorised as District Open Space and Waterfront/Linear Open Space in the Types and Hierarchy explained in Community Land Management Plans – An introduction.

The Open Space Types applied in this Community Land Management Plan are not limited in the area they may occupy within the Reserve but will generally be available to apply anywhere within the Reserve and across any or all individual community land parcels that form the Reserve.

Purpose for which the land is held

The Council holds these lands for the primary purpose of providing connected and publicly accessible waterfront open space areas with linear shared use pathways, recreation and community facilities for community use and spaces that may be utilised from time to time for complementary business purposes. The Council also holds this land for secondary purposes associated with addressing environmental, urban design, heritage and stormwater management needs (in no particular order of precedence).

Lease or Licence Permissions

Council may issue a licence and/or permit to allow access over the Reserve, or to allow for an activity of a short-term nature. Uses of the land prohibited by Council by laws without approval or uses not identified in this management plan may be approved in relation to the Reserve for instances such as, but not limited to, access to adjoining properties during building construction work.

Council may issue an authorisation for commercial activities under Section 200 of the Local Government Act 1999. Authorised activities must be consistent with the purposes for which the Reserve is held. Approvals may be given on conditions the Council considers appropriate.

An example of activities Council considers relevant to the purposes of the Reserve when considering lease, licence, authorisation or permit requests are (without limitation)

- Community and recreational activities and/or services catering to all ages and cultural groups ie child play groups, biodiversity and nature activities.
- Educational, cultural and community awareness activities that support cultural diversity, health, fitness and general community wellbeing.
- Activities of a passive or active nature that promotes a healthy active lifestyle ie tai chi, yoga, boating/aquatic activities, bicycle riding etc.
- Small family celebratory events.

Permits, licences or easements may be granted by Council to public service provider authorities, within delegations of a relevant Act, for the purposes of provision of electricity, gas, water, internet and telecommunications services (except for above ground telecommunications towers).

Management Objectives for the lands (in no particular order of precedence)

- To provide an open space area with recreational facilities, and services from the area and facilities, that encourages participation in, and facilitates recreational, cultural and community pursuits and to seek to maximise the use of the lands and their facilities for these purposes.

- To support and encourage pedestrian and bike rider movement within and through the Reserve made easily accessible from all public entry points.
- To maintain access to and support the activities of the adjacent lake and protect the waterway.
- To address specific environmental, heritage and urban design objectives.
- To utilise the Reserve for stormwater management purposes if necessary.

Proposal for managing the lands

The management of Tiranna Reserve is to be consistent with the descriptions and guiding principles for use and development identified in District Open Space Hierarchy and Linear/Waterfront Open Space Type described in Community Land Management Plans – An introduction.

Performance Targets and Measures for the lands

The performance targets and measures for Tiranna Reserve are outlined below. They do not indicate an order of hierarchy or priority.

Performance Targets	Performance Measures
<p>To develop and pursue maximised shared use of open space and facilities that support the sporting, recreational and community uses of the lands (including but not limited to facilities such as sporting equipment, playing and activity surfaces, seating, shade, paths, carparking, storerooms, amenities, art works, cultural heritage references, lighting, fencing, fitness and play equipment, bbqs etc.).</p> <p>Renew/upgrade landscaped areas, recreational facilities, building assets and associated infrastructure as outlined in the relevant Asset Management Plan (including but not limited to facilities such as revetment walls, beach areas, seating, shade, shelter, fitness and play equipment, lighting, public amenities, paths, fencing, art works and cultural heritage references etc.).</p> <p>Provide a safe environment for visitors and users of the Reserve.</p>	<p>Increased visitation use and community satisfaction with Council's open space areas and recreational facilities measured by an audit of customer feedback platforms, registers, issued permits, transport movement studies and customer surveys as conducted from time to time and reported to AM Committee.</p> <p>Completed upgrade/renewal works reported to Council and AMS Committee.</p> <p>Reduction in security incidents reported to Council as measured by an audit of Council's customer feedback platforms.</p>
