### Description of the land

Gilbert Corner Reserve is a small local reserve that is shown in the 'Site Map' of this Community Land Management Plan. The Reserve and land parcel (except for any part of the land, where relevant, that is subject to any lease/licence as granted by Council in accordance with Section 202 of the Local Government Act) is categorised as Local Open Space and Landscape Park in the Types and Hierarchy explained in Community Land Management Plans – An introduction.

### Purpose for which the land is held

The Council holds the land for the primary purpose of providing a landscaped open space buffer area between the railway and residential buildings with limited facilities for community use. The Council also holds this land for secondary purposes associated with addressing environmental, urban design, heritage and stormwater management needs (in no particular order of precedence).

### **Lease, Licence and Permits**

Council may issue a licence and/or permit to allow access over the Reserve, or to allow for an activity of a short-term nature. Uses of the land prohibited by Council by laws without approval or uses not identified in this management plan may be approved in relation to the Reserve for instances such as, but not limited to, access to adjoining properties during building construction work.

Council may issue an authorisation for short term commercial activities under Section 200 of the Local Government Act 1999. Authorised activities must be consistent with the purposes for which the Reserve is held. Approvals may be given on conditions the Council considers appropriate.

An example of activities Council considers relevant to the purposes of the Reserve when considering authorisation or permit requests are (without limitation)

- Activities of a passive nature that promote biodiversity.

Permits, licences or easements may be granted by Council to public service provider authorities, within delegations of a relevant Act, for the purposes of provision of electricity, gas, water, internet and telecommunications services (except for above ground telecommunications towers).

### **Management Objectives for the land** (in no particular order of precedence)

- To provide a naturally landscaped, environmental buffer area screening the railway from nearby residential homes.
- To address specific environmental, heritage and urban design objectives.
- To utilise a portion of the Reserve for stormwater management purposes if necessary.

### **Proposal for managing the land**

The management of Gilbert Corner Reserve is to be consistent with the descriptions and guiding principles for use and development identified in Local Open Space Hierarchy and Landscape Park Open Space Type as described in Community Land Management Plans – An introduction.

**Performance Targets and Measures for the land**

The performance targets and measures for Gilbert Corner Reserve are outlined below. They do not indicate an order of hierarchy or priority.

Performance Targets	Performance Measures
Renew/upgrade landscaped areas, facilities and associated infrastructure as outlined in the relevant Asset Management Plan.	Completed works reported to Asset Management Committee.
Provide a safe environment for visitors and users of the Reserve.	Reduction in security incidents reported to Council as measured by an audit of Council’s customer feedback platforms as conducted from time to time.
