General description of the land

Kingfisher Walkway Reserve is a collective group of land parcels that together form a connected open space linear walkway shown in the ‘Site Map’ of this Community Land Management Plan. The Reserve and land parcels (except for any part of the lands, where relevant, that is subject to any lease/licence as granted by Council in accordance with Section 202 of the Local Government Act) is categorised as Neighbourhood Open Space and Linear Open Space in the Types and Hierarchy explained in Community Land Management Plans – An introduction.

Purpose for which the lands are held

The Council holds these lands for the primary purpose of providing publicly accessible connected open space areas with linear shared use pathways and spaces that may be utilised from time to time for complementary business purposes. The Council also holds these lands for secondary purposes associated with addressing environmental, urban design, heritage and stormwater management needs (in no particular order of precedence).

Lease or Licence Permissions

Council may issue a licence and/or permit to allow access over the Reserve, or to allow for an activity of a short-term nature. Uses of the lands prohibited by Council by laws without approval or uses not identified in this management plan may be approved in relation to the Reserve for instances such as, but not limited to, access to adjoining properties during building construction work.

Council may issue an authorisation for commercial activities under Section 200 of the Local Government Act 1999. Authorised activities must be consistent with the purposes for which the Reserve is held. Approvals may be given on conditions the Council considers appropriate.

An example of activities Council considers relevant to the purposes of the Reserve when considering permit/authorisation requests are (without limitation)

- Small scale community activities and/or services catering to all ages and cultural groups.
- Activities of a passive or active nature that promote biodiversity and/or healthy active lifestyles, running groups etc.

Permits, licences or easements may be granted by Council to public service provider authorities, within delegations of a relevant Act, for the purposes of provision of electricity, gas, water, internet and telecommunications services (except for above ground telecommunications towers).

Management Objectives for the lands (in no order of precedence)

- To support and encourage pedestrian and bike rider movement within and through the Reserve along a linear shared use pathway and network of open space areas made easily accessible from all public entry points.
- To provide an open space area with limited facilities for community use.
- To address specific environmental, urban design and heritage objectives.
- To utilise the Reserve for stormwater management purposes.

Proposal for managing the land

The management of Kingfisher Walkway Reserve is to be consistent with the descriptions and guiding principles for use and development identified in Neighbourhood Open Space Hierarchy and Linear Open Space types described in [Community Land Management Plans – An introduction](#).

Performance Targets and Measures for the land

The performance targets and measures for Kingfisher Walkway Reserve are outlined below. They do not indicate an order of hierarchy or priority.

Performance Targets	Performance Measures
<p>To develop and pursue opportunities for optimal shared use of the open space for pedestrian and bike movement within and through a network of connected linear open spaces adjoining the lake.</p> <p>Renew/upgrade/develop landscaped areas and associated infrastructure as outlined in the relevant Asset Management Plan (including but not limited to facilities such as seating, shade, shelter, lighting, public amenities, paths, fencing, art works and cultural heritage references etc.).</p> <p>Provide a safe environment for visitors and users of the Reserve.</p>	<p>Increased usage of the bike/pedestrian network as measured by transport movement studies as conducted from time to time and reported to Council.</p> <p>Completed upgrade/renewal works reported to Council and Asset Management Committee.</p> <p>Reduction in security incident reports to Council as measured by an annual audit of Council’s customer feedback platforms.</p>
